

Dear Students, Volunteers, and Friends,

Subject: Invitation to Participate in the Global Marine Biodiversity Conservation Initiative

The Marine Biodiversity Conservation Trust (MBCT) warmly invites young minds, students of all levels, friends, and global volunteers to participate in our international program — **Global Marine Biodiversity Conservation Initiative**.

This meaningful initiative encourages participants to help document and protect marine life by sharing photos and videos that highlight local ocean and coastal biodiversity, pollution issues, and clean-up activities. Every participant will receive an **e-Certificate of Appreciation** from MBCT in recognition of their valuable contribution.

Join us in making a difference for our planet's blue heart. Together, we can conserve and restore marine biodiversity and work towards a brighter, more sustainable future.

With regards,

Dr S. David Raj

President, Marine Biodiversity Conservation Trust
